Explanation of Fees

Initial Social Contribution A capital contribution to the repair, maintenance and upgrade of the common area grounds and facilities.

Amenity & Base Assessment Our documents require that we utilize the amenity and base assessment language, however these two fees combine to cover all operating costs related to the common area including but not limited to security, grounds maintenance, maintenance of the Clubhouse and pool facilities, food and beverage and the staff related to providing these services.

Service Fee All members pay a service fee to food and beverage in lieu of gratuity. Comcast: We contract with Comcast for basic cable & internet and this service is provided at a rate slightly reduced from what you could purchase as an individual in the open market. This is provided as a year-round service and members are not able to opt out.

Common Area Capital The annual capital contribution to the capital fund for the repair, maintenance and upgrade of the common area grounds and facilities.

Security You may opt to have your home alarm monitored by Willoughby's primary contractor. This is an optional fee.

Side Yard Pickup The Club has elected to contract for side yard trash pickup so you do not have to take your trash bins to the curb.

Quarterly Neighborhood Assessment Member who live in one of our 209 Neighborhood homes received additional services such as landscaping, irrigation and tree trimming. In addition, there is an annual capital contribution that provides for repair, maintenance and replacements in the neighborhoods such as major landscaping and irrigation pump replacement.

Golf Equity Membership

Equity Certificate: This is either refundable or non-refundable and reflects the golfer's equity position in the Club. The purchase of an equity certificate entitles members access to the golf course and the right to vote on matters related to the golf course in accordance with their specific golf category.

Golf Dues: The annual payment for the operating costs related to the golf facilities. First year prorated based on join date.

Capital Contribution: The annual capital contribution to the capital fund for the repair, maintenance and upgrade of the golf facilities.

Trail Fee: Payment of this fee allows you to access the golf course and is in lieu of a cart fee which would be due and payable every time you played golf. First year prorated based on join date.

Hole-In-One Club: Each golf membership is billed \$20.00 to create a fund.

Equity & Executive Golf Payment Options

New Equity or Executive Golf Members may pay the Equity Certificate fee over five years, with zero due at closing and five subsequent annual payments due at each anniversary.
